Noémi Rumpeltin

Full-Stack Engineer I DevOps & Cloud Specialist

Experience

Application Developer - Atos/Eviden   London & Amsterdam | 2023 – 2025

- Developed secure frontends using React with REST API backends for government projects in AWS and Azure environments
- Built and optimised CI/CD pipelines using Jenkins and GitHub Actions, reducing time needed for manual testing by over 50%
- Integrated AI-based tools into internal systems, improving process efficiency and decision-making speed
- Implemented a developer CLI tool to generate preconfigured microservice, API and frontend skeletons, improving efficiency

Cloud Engineer - Digital Futures   London | 2022

- Built and deployed AWS infrastructure-as-code using Terraform, with a focus on scalability, cost optimisation and high availability
- Deployed and managed containerised workloads in Kubernetes to improve resource utilisation and service uptime

Freelance Web Developer   London | 2020

- Delivered cost-effective solutions, incl. UI/UX design, coding, hosting setup on AWS and performance optimisation

Journalist   Germany | 2015 - 2019

- Produced articles, interviews and reports about cultural events
- Emphasis on research, analysis and communication skills

Core Technical Skills

Programming
Java, Kotlin, Go, C#, Python, JavaScript, TypeScript, Hugging Face

Frontend
React.js, Next.js, Vue.js, Tailwind CSS, HTML, CSS, SCSS, Sass, HTMX

Backend
Spring Boot, REST APIs, Node.js, .NET, MySQL, AWS RDS, gRPC

Cloud & DevOps
AWS, Azure, Terraform, Jenkins, GitHub Actions

Containers & Orchestration
Docker, Kubernetes, Red Hat OpenShift

Additional Tools
CI/CD, Testing (Vitest, Jest), Linux, UI/UX Design, Authentication, IaC, Data security & compliance for AI systems

---

As I have been trained in both fields, I particularly enjoy bridging software engineering with cloud infrastructure to create reliable, high-performance systems. With a hands-on, problem-solving approach, I work effectively both independently and collaboratively. My primary interest lies in the integration of AI systems and in DevOps, preferably in critical and defense-related environments.

ILR UK | SC | London, UK
German (EU Passport)

Certs & Education

- AWS Certified Dev
- AWS Certified SAA
- AWS Certified Cloud Practitioner
- Cloud Engineer Diploma by DF
- FS Web Dev Immersion by CF
- Prompt Engineering Professional
- IB Diploma from ISHR

Additional Information

Security Clearance

UK SC
— reactivation possible until 2027

Languages

Bilingual in German & English
Elementary French

Interests

Aviation/gliding, RC flying, travelling, climbing, creative writing and problem-solving DIY, e.g. campervans, gardening solutions or RC planes
